

This isn't freedom of the media this is partisan political pressure on the part of Sinclair Broadcasting.

Sinclair stations use public airwaves free of charge, and are required by law to serve the public interest. One-sided programs, like "Stolen Honor", do not serve the public interest and are harmful to our democracy. At least they should also show "Going Upriver" over all the affiliates, prime time either a day before or a day after "Stolen Honor".

I didn't think I could be more disghuseted by what passes for truth, information and commentary on television and radio this campaign season but this puts me over the top!

Thank you.

Martha Trolin
